1. Introduction

1.1 Purpose

This report presents the profile of federal public procurement completed on EPADS in the First Quarter of FY 2026-27 (1 July to 30 September 2026). It shows how many procurement processes reached a Letter of Award, what was procured, which methods and procedures were used, and how procurements and the awarded amount are distributed across the thresholds set by the Public Procurement Rules, 2004.

1.2 Scope and data

This report covers all 11,788 procurements of 280 procuring agencies that were awarded on EPADS between 1 July and 30 September 2026. The data comes from EPADS. Some procurements were awarded in more than one lot, so the 11,788 procurements have 13,080 Letters of Award; each procurement is counted once. Estimated cost is the procuring agency's own estimate. Awarded amount is the amount in the Letter of Award. All amounts are in billion rupees (PKR bn). Figures may not add up to totals due to rounding.
